Thule Allax

Designed to protect both dogs and people

Thule Allax dog crate is the perfect choice for safe and comfortable car rides with your four-legged friend. It is thoroughly crash tested in our own Thule Test Center, as well as certified by TÜV SÜD. The innovative crumple zone provides superior protection for both passengers and your dog.

Designed to protect both dogs and people

1360 kg

An unrestrained 34 kg (75-pound) dog can become a 1360 kg (3 000-pound) force in a 40 km/h (25 mph) crash. A 4,5 kg (10-pound) dog can exert 136 kg (300 pounds) of force in a 50 km/h (30 mph) crash.

16 %

Shockingly, only 16% of pet owners use safety restraints for their dogs.

Safety for everyone

Safety is always our top priority. At Thule, we rigorously test all our products under extreme conditions to ensure they exceed our high ISO requirements.

Crash tests

Rear-end collision
Front collision
Roll-over scenario
